Dear John Rymer and AdZoo:

We are so pleased with the immediate response we've gotten from our AdZoo landing site! Our site was on the first page of Google within just a few days of our meeting with you and we received our first lead less than two days after our landing site appeared online! One week later, we have already gotten 4 leads from the site, which is a huge increase in leads for us. When we were first considering signing up with AdZoo we had our doubts as to how effective the campaign would be but we decided to take a chance. Already within one week we know we made the right decision! We highly recommend AdZoo to any of your potential clients and it has been a pleasure working with you.

Sincerely,
